Plans For Aid in Improving City Parks Are Outlined at Meeting of Garden Club

Shrubbery and Trees To Be Donated for Beautifying McKinley Park; Real Estate Board Co-Operates in Project

Working in conjunction with the Marion Real Estate Board, the Marion Garden Club will this year plant several thousand shrubs and plants around the shore of the lake at McKinley Park. Plans for this and other civic improvements as well as for the program for the coming season were made at the first meeting of the year held at the club last night at the home of Mrs. J. J. Longshore, 333 C. Church st.

Mitchel Field, N. Y., April 13.—A persistent report was current here at 11 o'clock that the German treasure-ladle plane Bremen had been sighted over Kingsport, Nova Scotia, at 10:45 a. m. (Nova Scotia time, 9 a. m., eastern standard time), standing in a southerly direction. Kingsport is about five hours flying time from Mitchel Field. It was estimated that if the plane sighted at Kingsport really was the Bremen, and was able to maintain its best speed, it should reach here between 2 and 3 o'clock this afternoon.

GENERAL ELECTRIC Refrigerator

When you buy an electric refrigerator, do a bit of investigating on your own. Look under the cabinet, look carefully inside it, and, above all things, listen to it.

When you look under the cabinet do you find moving parts of machinery or no machinery at all? In the General Electric Refrigerator, you'll notice at once that all the models are up-on-legs. This means an easy job cleaning under them. And it also means that all the machinery is safely sealed away in the air-tight steel

casing which you see mounted on the top of the cabinet.

Look inside. Is there really ample food space? You will find in the General Electric Refrigerator that the chilling chamber is amazingly compact. It actually takes little more space than the trays in which your ice is frozen.

Then listen. This you must do. We want you to judge for yourself the quietness of this remarkable refrigerator. Come in today. Time payments can be arranged, if you wish.

Modern Methods Demanded For Mercantile Success, is Assertion of Speaker Here

Competition Calls for Skillful Handling of Stock and Sales, Dayton Man Tells Local Kiwanis Club Members

The seeking of large discounts by buying greater quantities of merchandise than can be sold, carrying too many brands and too many sizes of merchandise and a general disregard of modern methods of conducting a business, were among the reasons given by F. J. Nichols of the F. J. Nichols Co.,

Dayton, in an address before members of the Kiwanis club at their weekly luncheon at Hotel Harding yesterday noon, for the failure or lack of success of many of the smaller stores.

The day of making money on discounts is passed, the speaker said. The merchant who buys a gross of some article because he can get a larger discount, and only succeeds in selling five or six dozen is not on the road to success, he said.

The chain store was pointed to by the speaker as an outstanding example of modern methods in the operation of a business.

"The chain store has been a blessing, rather than a curse, to business," the speaker said. "It has shown the necessity for better business methods for the poorly managed store."

Program Being Made

Production has reached a point, due to the war, which under old conditions would not have been reached until 1930, while selling is still as of 1925, the speaker said. In other words, the art of producing is 25 years ahead of the art of selling.

That progress is being made, however, was cited by the speaker, who said in 1916 enough silk stockings were being produced to provide one pair for every 215 women while in 1927 enough were produced to provide 11 1/2 pairs for every woman, girl and every girl baby in the United States.

Proof of the need of development in the art of selling was given by the speaker, who said that in 1927 there were 100,000 companies which made a profit of but \$25 while 200 of the successful companies made a profit of \$15,000,000 each.

Guard Entertained

Members of the Honor Guard at the Harding Memorial were guests of the club at the luncheon yesterday. After expressing appreciation of the guard for the courtesy shown it here, Lieutenant Sherkey said the guard would be removed on the first of May. He also said since coming to this city the guard personnel had been changed 10 times, resulting in 248 different soldiers being brought here. Of this number, he said, 10 had married Marion girls and several had secured discharges and were living here.

Cuban Ambassador Finds Lincoln Table in Shop

WASHINGTON, April 13.—The Cuban ambassador, who is visiting the city, has found a rare opportunity to purchase a piece of furniture of great value. He has purchased a round extension table that will comfortably seat eight persons and with the addition of extra leaves, up to 20.

At one of the periodic refreshings of the White House this table was sold along with a quantity of other furniture that was being discarded. It was bought by a Washington family through which it eventually found its way to the auction house.

ent ambassador completes his visit in Washington he plans to take the table with him, either to his home country or to another foreign capital should he accept a diplomatic assignment. Apparently it appears ultimately lost to America.

Recently, Senor Don Antonio Ferrera, the Cuban ambassador, a connoisseur of antiques, period furniture and art works, was browsing through an auction house here when he came across this piece, which attracted his fancy. Careful investigation disclosed its authenticity as a Lincoln period White House relic. He purchased it.

OPTOWN BOOSTERS FORM ORGANIZATION

M. Strelitz Elected Chairman
C. Farr Larie, Secretary

pleted, and it is expected the board will center its efforts on securing a nature for the 15th street improvement. When presented at the meeting last night, 15 signs of property owners had been secured for the center improvement.

Belief that no more signs will be experienced in 1927 was expressed by members of the association, the 15th street improvement center position has been secured in less than an hour, it was stated.

Neither of the improvements is contemplated for this year in the plans of the organization. In fact, because of the cost, it is not probable that more than one will be completed next year. Just how much could be accomplished, however, would depend upon whether the streets would be repaved or just resurfaced. If the latter plan is decided on, the cost would not be so great and one-half would be borne by the city, whereas if the streets are repaved the city would bear but 25 per cent of the cost.

Both discussed

Both methods were discussed at the meeting last night, but no definite stand was taken. Reporting, however, seemed to be favored.

In discussing the financing of the projects, it was brought out at the meeting by G. Farr Larie, former City Council member, that the city can issue bonds for improvement, only in an amount equal to 50 per cent of the total amount of bonds retired during the year. According to figures presented by Larie, who said he had taken them from the books of the sinking fund trustees, the city would retire \$150,000 next year and \$125,000 in 1928. The secretary said he had secured the figures for the purpose of knowing just how much money would be available before any action is taken by the organization.

A petition asking for the changing of the up-town street lights to harmonize with the lights to be installed on W. Center-street will also be presented to city council. Whether it will be presented with the first improvement petitions, however, was not decided. It is expected to get for the same type of light that was selected by city council for use on W. Center-street from the Hocking Valley tracks to Oak-st.

Presentation to Council

It was also planned to support the petitions when presented to council, by the entire organization attending the meeting in a body. It is expected the petitions will be presented at the next meeting of council, which will be held on the night of Monday, April 25.

Another improvement which may grow out of the efforts of the new organization, and one which it was generally conceded by those present at the meeting last night as sorely needed, is the securing of more modern methods in the cleaning of the streets.

"The securing of a street sweeper of a modern design to keep the streets clean after they are improved, should be another purpose of this organization," Secretary Larie told members of the association.

The present manner of cleaning the streets, was declared by the speaker to be highly unsatisfactory, the dirt being only partially gathered up by the brooms in the hands of the white wings.

With a modern sweeper going over the streets three nights a week the streets should be kept in first class condition, Larie declared.

Differences In Individual Abilities and Possibilities An Aid to Higher Education

Thought Forms Keynote of Talk by Clarence Little at Eighth Annual Ohio State Education Conference Being Held in Columbus

Columbus, April 13.—That the differences in individual abilities and possibilities are of great importance in the development of higher education was the keynote of the speech given by Clarence Little, president of the University of Michigan, at the eighth annual Ohio State Education Conference being held in Columbus.

The nature of the pupil has not been taken as far as knowledge of subject matter and methods of teaching and preparing for this we must use carefully means in selecting college instructors.

President Little declared that the movement of the junior college does not take care of all of the individual problems of the present day colleges. He stated, however, that the junior college plan will have to be accompanied by carefully developed plans for detecting and utilizing individual differences.

Teachers Interested

Interest of college teachers in the nature of the students is the only way with the exception of a general class increase which seems at present available for giving to university faculties a unity up to now lacking, he said. "If the matter is properly handled there is a possibility that quality and enthusiasm may be developed among faculty members."

"Our colleges and universities as well as our high schools are slow to realize that practical spiritual problems exist," said Professor C. H. Farnsworth, of New York, in addressing the sectional meeting for teachers of Music this afternoon at the conference.

"They stimulate egoistic, self-realizing ambitions of the individual, but are slow to cultivate a broad, social idealism. Without a personal element in teaching the spiritual life, a enthusiasm cannot be handled on a generation to generation."

Because of the breaking up of old customs the apparent lawlessness and immorality of the modern youth has been pointed out as a danger of the present age, the speaker announced.

Youths No Worse

"Our youths are not morally worse than those of 50 years ago," Professor Farnsworth declared, "but they are spiritually more sensitive to the truth in moral relation."

Addressing the sectional meeting for teachers of art, Alfonso Lamelli, of the Art Institute of Chicago, made up an appeal to the American public "to spread the coming of American art through patronage of honest American artists and through the development of adequate training schools for its young artists."

OIL TRIAL HALTED UNTIL NEXT MONDAY

Judge Bailey Faces First Real Problem of Sinclair Hearing

Young Doherty carried the famous "little black bag" containing the cash from his father to Fall.

Roberts' idea is to convince the jury that Fall was in a thoroughly corrupt state of mind at the time he was leasing the oil reserves. He will experience plenty of opposition, however, as the defense will challenge Doherty's testimony as irrelevant to the Teapot Dome conspiracy.

NOLLE INDICTMENT Drop Charges Against Young Doherty, Roberts Announces

Washington, April 13.—Special Government Oil Prosecutor Owen J. Roberts today announced that the bribery indictment against E. L. Doherty, Jr., growing out of his father's lease of the Elk Hills Naval Reserve from former Secretary of Interior Albert B. Fall, had been nolle prossed.

The bribery indictment against Doherty, Sr., and Fall still stands, however, Young Doherty carried the famous "little black satchel" containing \$100,000 in cash from his father to the former cabinet official.

Young Doherty is now enroute to Washington to testify in the criminal conspiracy trial of Harry P. Sinclair, third of the "big three" in the oil scandals of 1923.

Negro Rescued in Unconscious Condition; Taken to Police Headquarters

Shortly after 5 o'clock yesterday afternoon, the police received a call from the vicinity of the stone quarry north of the city, the report stating that a negro, who had fallen from a Hocking Valley freight train, was lying along the track.

Calling the Curtis & Co. ambulance, the police made a hurry-up run to the quarry, where they found the colored man beside the track unconscious. As police were satisfied that his condition was due more to a fall than to a fall, the man was taken to police headquarters.

The man, who had not supplied the police with his name this afternoon, declared being drunk, and points to a lump on his head as evidence of an accident. He will be released late this afternoon.

Farm Relief Bill Headed Straight For White House

SENATE PASSES MEASURE, 53-23

House Almost Certain To Give Approval to McNary-Haugen Plan

Washington, April 12.—The battle-ridden McNary-Haugen farm bill was headed straight for President Coolidge's desk today after passage in the Senate by a vote of 53-23.

The measure, which would provide for the payment of \$100,000,000 in farm relief over a period of five years, was passed by a vote of 53-23. The measure was introduced by McNary, Republican of Oregon, and Haugen, Republican of Iowa.

RADIO CORPORATION WANTS 65 STATIONS

One More Complication Develops in Federal Commission's Distribution Plan

Washington, April 12.—Another complication in the government's plan for distributing a short wave long-range radio system developed today when the Radio Corporation of America applied to the Federal Radio Commission for license to operate 65 long frequency transmitters throughout the country.

The Radio Corporation, according to the application, proposes to establish a radio communication system which would parallel the wire lines of the country, giving all large cities direct radio communication with United States and foreign countries.

Similar proposals have been made by the Postal Telegraph Co., the International Radio Telegraph Co. of Cleveland, and the Universal Wireless Communications, Inc., of New York. The commission announced that no action had been taken on any of the applications, but that they would be considered in connection with other short wave license cases.

Central stations will be located in New York, San Francisco, Chicago and New Orleans, with substations at 21 other cities, provided the commission grants the licenses.

Twenty Miles of New Track Included in Improvement Program

Rail laying on the Hocking Valley railroad in the district over which F. A. Sparks, Marion, is supervisor, has practically been completed. About 20 miles of new track have been laid.

A total of 45,000 ties will be laid and 25,000 tons of stone ballast are also included on this year's program.

At the Big Four Railroad will run an excursion to Cleveland Sunday. The train will leave Marion at 4:55 a. m.

FOUR NATIONS ASKED TO RENOUNCE WAR

United States Submits Proposal of Kellogg to Other Governments

Washington, April 12.—The United States today submitted to the governments of Great Britain, Germany, Italy and Japan the proposal of Secretary of State Kellogg for a worldwide treaty renouncing war.

With the approval of France, the American ambassadors at London, Rome, Berlin and Tokyo presented to the respective governments all the correspondence which has passed between France and the United States relative to the suggestion of Foreign Minister Briand of France, that France and the United States sign such a treaty between themselves.

"The government of the United States desires to see the institution of war abolished and stands ready to conclude with the French, British, German, Italian and Japanese governments a single multilateral treaty, open to subsequent adherence by any and all other governments, binding the parties thereto not to resort to war with one another," said identical notes submitted to each government.

The proposed treaty, a draft of which accompanied the correspondence, would be self-perpetuating.

SAYS WIFE TRACKED HIM DAYS BEFORE SHOOTING

New York, April 13.—Mrs. Esther Evans Wilson, big game huntress and society woman, tracked her husband, Dallett H. Wilson, prominent attorney, for days before she shot him down in his office here last month.

Wilson stated that his wife was mentally deranged, and suffered from hallucinations which made her believe numerous entirely unfounded stories about him. He said he did not wish to have her prosecuted, but that he feared for his life if she were freed, and believed she should be placed in a sanitarium.

JUNKERS TO ESTABLISH AMERICAN PLANE PLANT Seattle, Wash., April 13.—An airplane factory will soon be established in an American city by the Junkers Co., builders of the German monoplane fighters, according to William Knight, vice president of Junkers, Inc., American branch of the German concern.

Knight is in Seattle today on a tour of inspection of several cities, the object of which is the selection of a suitable site for the proposed factory.

LEAVE BOMB AT DOOR Cleveland, April 13.—Police today were searching for the person or persons who last night left a bomb on the front porch of the Last Cleveland home of Harry Brooks, head of the H. A. Brooks, Inc., investment service here.

The bomb, which was discovered by Brooks' wife in time to prevent an explosion, had been fashioned out of an army hand grenade, the time pin of which had been removed and the hole packed with a nitroglycerine fuse, according to East Cleveland authorities.

THROWS ACID AT GIRL Dayton, April 13.—A young man whose attentions were rejected by Miss Faye Strell, 20, was sought today by police as the person who threw acid over the girl's face last night, seriously burning her. Miss Strell was sitting in an automobile with a girl companion when her attacker appeared unexpectedly, dashed a quantity of acid over her head and ran. Her entire face was scored.

Recreation Commission To Name Officers Tuesday Night

75 TEAM MEMBERS ATTEND FIRST MEET AND BANQUET HERE

Twelve Men Named on Board; Expect 40 Nines To Enter

Members of the Marion Recreation Ball Commission will hold their annual election of officers and make plans for the opening of the season here in May at a meeting to be held at the Y. M. C. A. Tuesday night at 7:30 o'clock.

The commission—Ray Smallwood, John Clark, Earl Smart, Norris Crisinger, F. M. Gibson, John Abel, Leo Keller, Ben Jones, William E. Fetter, W. D. Martin, Frank Thomas and Elmer Smith—was named at the annual get-together banquet held at Wesley M. E. Church last night.

Sam Williamson, director in intramural athletics and assistant football coach at Ohio State University, was the principal speaker on the program, telling of his experiences on the gridiron.

He said that athletics are now being looked upon as one of the greatest possibilities in developing men and women. The greatest qualities in an athlete, he said, are aggressiveness, obedience, determination and co-operation.

At the present time there is a balance of \$243.05 in the treasury of the league, according to the report submitted by Roy H. Wadell, treasurer.

Cash on hand and receipts taken in during 1927 made a total of \$1,070 to start last season.

Tuesday night's meeting will take up any changes of rules and drafting the season's schedule. Arrangements will be made for officials and the purchase of new equipment necessary.

From present indications approximately 40 teams will be entered this year in five leagues. Entry blanks have been handed managers and captains of teams and must be returned to F. O. Rudolph, secretary of the commission, on or before May 1.

Just what rules will be revised could not be learned last night. It is expected that the Sunday School league will see more stringent eligibility rules while efforts will be made by the commission to prevent possible protests during the year.

President John Clark acted as chairman of last night's meeting attended by 75 managers and captains. Music was furnished by the Wesley M. E. orchestra.

SCHWARTZ OFFERED BOUT WITH SMITH IN ENGLAND

New York, April 13—Corporal Izzy Schwartz, recognized by the New York State Boxing Commission as flyweight champion of the world, may meet Willie Smith in a 15 round bout in England on June 4. "Old Pete" Causes Experts To Change Opinion of Cards

New York, April 13—Experts who sighted the St. Louis Cardinals in their calculations of the National League pennant race because the pitching staff "is a year older," would do well today to revise their estimate as Grover Cleveland Alexander, 37, concerned. Officially starting his eighteenth campaign as a big league pitcher, "Old Pete" held the champion Pittsburgh Pirates to seven hits yesterday and blanked them 5 to 0.

Baseball Season Started Too Early For Most Fans

BY DAVIS J. WALSH
 New York, April 13—Proponents of the idea that it is better to see a ball game in your decollete shirt sleeves than feel it in your marrow were amazed today with abundant evidence that the baseball season is being started neither wisely nor too late. At least five of the eight stadiums on Wednesday were made almost untenable from the standpoint of physical comfort because the weather was that of late February and yesterday the four scheduled games of the east were allowed to go by default because of rain, chill and snow.

For some years, there has been agitation in certain quarters for a later start in the major leagues, both as aid to the noble gentlemen who winter in the south so that they may go on in then north as quickly as possible and as a boon to the populace. These reasons, of course, are stated strictly in the order of their importance.

Time Will Come
 But, whatever the final reason may be, the time will come when baseball will set its calendar back by a matter of 10 days or more on its own initiative. It won't do so because it finds it is unnecessary subjecting its ball players to physical risks. Neither is it likely to take cognizance of the fact that sooner or later some man will have to be cut out of his overcoat and hung in the steam room until conscious or even sober. Those sort of things are a bit unfortunate, but a baseball man doesn't let that bother him. He is highly sympathetic, by nature, of course, and just can't let it that his sympathy is something with which he prefers to burden only himself. The sight of an empty seat will cause him to console with himself by the hour.

I take it, therefore, that he was all but heart-broken on Wednesday. The eight openings played to 198,517 patrons, as we say in the outer office (in a more propitious occasion, they might have numbered as many as 275,000). At the Polo Grounds, for example, Rogers Hornsby versus the Giants, grossed \$5,000; the attendance on a fair day might have been 55,000. In Philadelphia, they had Ruth, Gehrig, Cobb and Speaker in the same ball game and the turnstiles showed only 20,000 against a possible capacity of 35,000. There must have been a lot of keepers among those 20,000, at that.

Attendance Down
 In Brooklyn, the attendance was 12,000, whereas, on an ordinary Sunday in May, the first 35,000 get in the park and the others pile up in great disorder in the doorway.

These rows of empty seats speak the only language that is intelligible to the manager. He insists on the early start because he fears too loss of a few patrons who, lacking conscientious might go and die on him between April 11 and April 20. He likewise wishes the season because he thinks he might get a break on the weather and can prove that he did back in 1883.

SEVEN TITLE BOUTS ON PLANNED CARD
 Fights Planned for May, June and July in New York

New York, April 13—Matchmaker Jess McMahon is now planning to show seven of the nine boxing champions under Tex Rickard's banner this spring and summer. Matches have developed, or are developing, for all except Mickey Walker, who won't fight for Rickard because Jack Kearns is his manager.

Here is the way McMahon would line them up:
 May 4—Tom Morgan vs. Eddie (Cannonball) Martin for the junior lightweight title at Madison Square Garden.
 May 17—Sammy Mandell vs. Jimmy McLarnin for the lightweight title at the Polo Grounds.
 May 24—Izzy Schwartz vs. Frankie Genaro for flyweight title at the Garden.

June 7—Tommy Loughran vs. Jimmy Slattery or Leo Lomski for light heavyweight title at the Yankee Stadium.
 June 11—Bud Taylor vs. Kid Francis for bantamweight title at the Yankee Stadium.
 June 21—Joe Dundee vs. Ace Hukins or Sammy Baker for welterweight title at the Polo Grounds.
 July 26—Gene Tunney vs. Tom Heeney for heavyweight title at the Yankee Stadium.

The Morgan-Martin, Mandell-McLarnin and Tunney-Heeney matches have been closed and the first two definitely scheduled.

After the long wait over winter months, Ohio fishermen are beginning to get a realization of fishing anticipations. The crappies (shad) are biting at practically all good crappie lakes and bass are taking hold. It is only a matter of a week or so now until the south shore of Lake Erie will provide bass anglers with some real sport.

Bass will be on the open list until the first day of May. The season will then come until June 15. Both of these days are included in the closed season. If early indications mean a thing, 1928 is going to be banner year for fishermen. Those to whom I have talked have had better early season luck than has been their lot in years.

EXPECT PLENTY OF BASEBALL MATERIAL TO REPORT SUNDAY

All Players in District Urged To Tryout or Eagles' Team

Every baseball player of Marion and adjoining territory is urged to turn out for practice at Lincoln Park Sunday by Francis Bacon, manager of the Eagles' team.

Manager Bacon stated that every berth is open on his team so far and showings made in pre-season workouts will determine players that will be selected.

Hopes for favorable weather conditions are being expressed in baseball circles here. Last Sunday snow, rain and cold caused the initial workout to be postponed a week.

Opening of the season here will be held on May 6. The aggregation that will oppose the Marion team is not known. It is possible that a practice game will be arranged with Meiler's 1928 of Delaware for April 22 or 23 previous to the opening of the season.

A large number of letters from some of the leading semi-professional players of this district have been received by Manager Bacon asking for positions on the local team. With this list of material there seems to be no reason at all why Marion will not be represented on the diamond with one of the best outfits in years.

Efforts are being made to secure an exceptionally strong hurling staff backed up by a heavy hitting gang of infielders and gardeners. Promoters of the local team have been angling for the services of Harve Ferner of Kenton as a regular member of the staff as well as several other outstanding mound artists of this section of the state.

Sunday's practice session is slated to get under way at 1:30 o'clock when preliminary efforts to loosen up a few sore muscles will be made.

BOWLING TOURNAMENT IS PLANNED FOR "V" ALLEYS

A Merry Widow bowling tournament will get under way on the Y. M. C. A. alleys Saturday continuing until May 5. Prizes will be awarded to winners in doubles, mixed doubles, and singles events.

A JIM-DANDY NICKEL CIGAR

Made with Ripe Tobacco and Ripe Experience

When good tobacco and thirty years of cigar-making experience get together, you're pretty sure of a good smoke. But when combined in a cigar you can buy for a nickel, man, you've found something!

Here it is: *Havana Ribbon*. Value? Count back over the years—over the old-time purchasing power of a five-cent piece. Smoke a *Havana Ribbon*. You'll find your nickel buys a better cigar than it ever bought.

Sheer popularity has done it. Immense production enables the use of tobaccos usually considered too expensive for five-cent cigars. *Havana Ribbon* is made entirely of ripe tobacco—the choice middle leaves of the plant. No bitter under-ripe nor "flat" over-ripe leaves. Pure, fragrant, mellow-mild flavor of tobacco at its best. Long filler, too—no "cuttings" or short ends.

Also sold in *Practical Pocket Packages* of five cigars.

Mussolini Says Fascism Will Not Be Beaten

Rome, April 12.—Fascist newspapers were today taken to task by Premier Mussolini for blaming the recent Italian defeat on the enemies of the regime.

The defeat, Mussolini charged, was the result of the Italian army's failure to coordinate its movements with the Italian navy.

In a message to the newspaper, Podestà at Milan, Mussolini said: "The heaviest criminality of the Italian army is its failure to coordinate its movements with the Italian navy."

ATTENDS FUNERAL OF SISTER AT WARREN

Next Year's License Tags Being Made at Penitentiary

Next year's automobile license tags are now in the making at the Ohio Penitentiary. With 12,000 tons of steel and \$50,000 gallons of paint behind the walls, the job has started.

Black letters on sea green is the verdict. After 900,000 has been reached the series will start again with A 1 and so on, but there will be no star series next year. The star has been discarded on complaints of police that it is hard to recognize.

MANY GOOD MEN AVAILABLE FOR CHOICE AS VICE PRESIDENT

The fancy work that most girls like best is the weaving of romances.

Rival candidates for the vice-presidential nomination among nine eastern Republicans base their calculations on the fact that a western man is to be nominated for President. Those who would be his running mate are, upper left to right, Seymour Lowman, Major Hamilton Fish, Col. Theodore Roosevelt, Jr., Ogden L. Mills, all from New York, and Governor Ralph D. Brewster of Maine; lower left to right, Col. William J. Donovan of New York, Governor Alvin T. Fuller of Massachusetts, Senator George H. Moses of New Hampshire, and Senator Walter E. Edge of New Jersey.

Mr. and Mrs. Delphos Hill had as their guests Easter Sunday Mrs. Hill's sisters, Mrs. Lillian Brickley and Mrs.

Miss Hilda Nufer, of Cleveland, and Misses Marjorie and Esther Nufer, of Marion, were guests of their parents.

Thrifty Mothers

Will Be Glad To Know This

Saving on food costs can actually be a health measure. This is the recent discovery made by a number of women after an interesting experiment with foods.

On a Thursday these women served a carefully chosen supper, without bread. Costs were carefully noted.

On the following Thursday, they served the same meal for supper, adding slices of Holsum bread.

They discovered that Holsum bread, with its oven-freshness and its abundant nourishment, replaced many of the other foods, all more expensive.

The savings in actual cash ranged from 23c to 56c per meal, because Holsum bread was served.

This splendid loaf brought mealtime satisfaction because of its healthful goodness. Slices were eagerly enjoyed because of their oven-freshness.

Saving by serving Holsum bread has been proved a health measure because this tempting loaf generously supplies much of the needed nourishment lacking in foods more expensive.

Essential food elements are found, deliciously blended, in Holsum bread. Spread with butter, it is the perfectly balanced food . . . and the least expensive.

You will discover that these thrifty loaves are always delicious because they are oven-fresh when you get them at your grocer's.

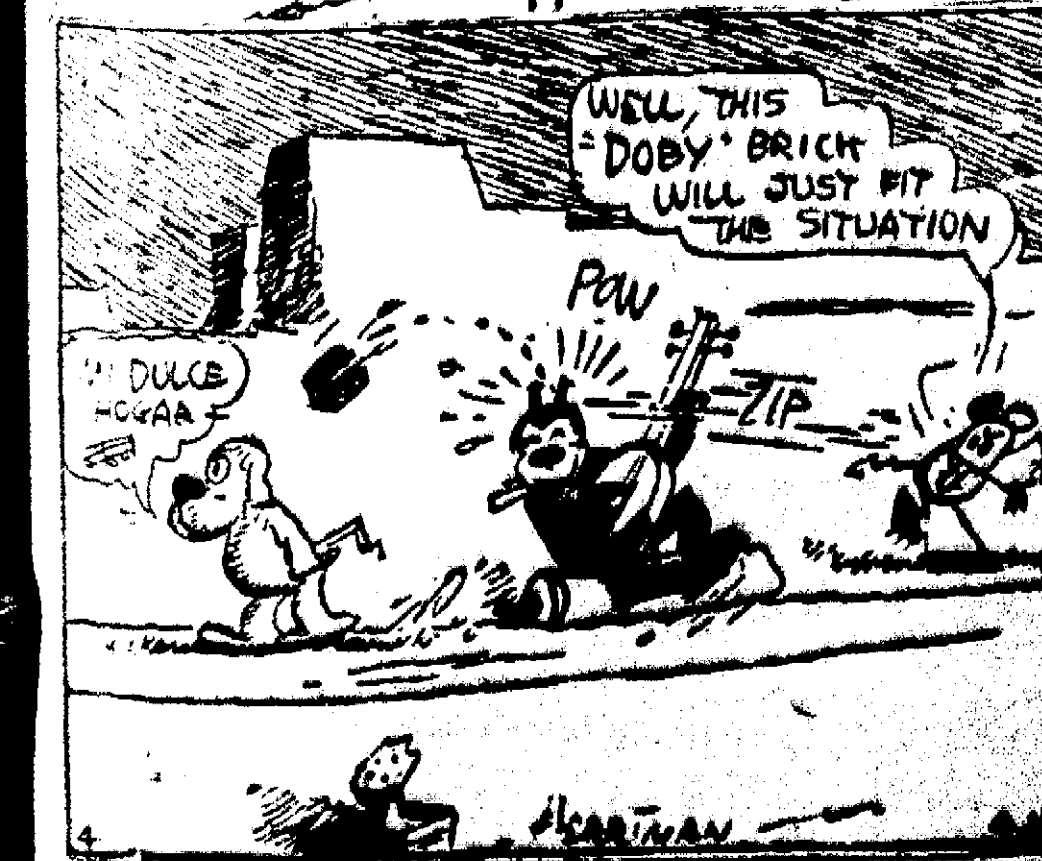

For health and economy, you'll find Holsum bread a real favorite. You'll enjoy every slice down to the last morsel.

You'll find Holsum bread at your grocer's today. Serve it tonight for health . . . and economy.
